Practice of optometry, defined.

For purposes of the Uniform Licensing Law, the practice of optometry means one or a combination of the following, without the use of surgery:

1. The examination of the human eye to diagnose, treat, or refer for consultation or treatment any abnormal condition of the human eye, ocular adnexa, or visual system;
2. The employment of instruments, devices, pharmaceutical agents, other than oral therapeutic agents used in the treatment of glaucoma, and procedures intended for the purpose of investigating, examining, diagnosing, treating, managing, or correcting visual defects or abnormal conditions of the human eye, ocular adnexa, or visual system or for the removal of superficial eyelid, conjunctival, and corneal foreign bodies and the ordering of procedures and laboratory tests rational to the diagnosis of conditions or diseases of the human eye, ocular adnexa, or visual system; or
3. The prescribing and application of lenses, devices containing lenses, prisms, contact lenses, ophthalmic devices excluding laser surgery, orthoptics, vision training, pharmaceutical agents, and prosthetic devices to correct, relieve, or treat defects or abnormal conditions of the human eye, ocular adnexa, or visual system.

The practice of optometry does not include the treatment of infantile/congenital glaucoma which means the condition is present at birth.

Optometry; license; requirements.
Every applicant for a license to practice optometry shall: (1) Present proof that he or she is a graduate of an accredited school or college of optometry; and (2) pass an examination approved by the Board of Optometry. After August 25, 1989, the examination shall cover all subject matter included in the practice of optometry as defined in section 71-1,133 for applicants who have graduated from an accredited optometry school after such date. After October 1, 1997, the examination shall cover all subject matter included in the practice of optometry for applicants who have graduated from an accredited optometry school after such date.

71-1,135.01 Pharmaceutical agents, defined.

For purposes of the Uniform Licensing Law, unless the context otherwise requires:
(1) Pharmaceutical agents, for diagnostic purposes, means anesthetics, cycloplegics, and mydriatics; and
(2) Pharmaceutical agents, for therapeutic purposes, means topical ophthalmic pharmaceutical agents which treat eye diseases, infection, inflammation, and superficial abrasions, or oral analgesics, including oral analgesics enumerated in Schedules III and IV of section 28-405 necessary to treat conditions of the eye, ocular adnexa, or visual system, or oral pharmaceutical agents for the treatment of diseases or infections of the eye, ocular adnexa, or visual system, or oral anti-inflammatory agents to treat conditions of the eye, ocular adnexa, or visual system, excluding steroids and immunosuppressive agents.

71-1,135.02 Optometrist; pharmaceutical agents; use; certification; fee; treatment of glaucoma.

(1) No optometrist licensed in this state, except an optometrist who has been certified by the department prior to April 30, 1987, or by another state with substantially equivalent requirements for certification as determined by the department upon recommendation of the Board of Optometry to use topical ocular pharmaceutical agents for diagnostic purposes prior to April 30, 1987, shall use topical ocular pharmaceutical agents for diagnostic purposes authorized under subdivision (2) of section 71-1,133 unless such person (a)
 submits to the board the fee of not less than twenty dollars nor more than one hundred dollars as determined by the department upon the recommendation of the board, together with evidence of satisfactory completion of a pharmacology course at an institution accredited by a regional or professional accrediting organization which is recognized by the United States Department of Education and approved by the Department of Health and Human Services Regulation and Licensure, (b) passes an examination approved by the department, and (c) has been certified by the department upon the recommendation of the board as qualified to use topical ocular pharmaceutical agents for diagnostic purposes. The department may approve for certification pursuant to subdivision (1)(a) of this section a pharmacology course if such course includes:

(i) A study of ocular anesthetics, mydriatics, cycloplegics, ocular toxicity of pharmaceutical agents, ocular allergies of ocular agents, and pharmacologic effects of ocular drug substances;

(ii) The consideration of the mechanism of action of anesthetics, cycloplegics, and mydriatics in human beings and the uses of such substances in the diagnosis of occurring ocular disorders;

(iii) At least one hundred hours of classroom education, clinical training, and examination; and

(iv) The correlation of the utilization of pharmaceutical agents and optical instrumentation and procedures.

The department may approve for certification pursuant to subdivision (1)(b) of this section an examination if such examination is:

(A) Based upon the competencies taught in a pharmacology course; and

(B) Administered by an institution accredited by a regional or professional accrediting organization which is recognized by the United States Department of Education and approved by the Department of Health and Human Services Regulation and Licensure.

(2) No optometrist licensed in this state on or after April 30, 1987, shall use topical ocular pharmaceutical agents for therapeutic purposes authorized under subdivision (3) of section 71-1,133 unless such person (a) submits to the board the fee of not less than twenty dollars nor more than one hundred dollars as determined by the department upon the recommendation of the board, together with evidence of satisfactory completion of a minimum of one hundred hours since January 1, 1984, of which forty hours shall be classroom education and sixty hours shall be supervised clinical training as it applies to optometry with particular emphasis on the examination, diagnosis, and treatment of the eye, ocular adnexa, and visual system offered by a school or college approved by the department, (b) passes an examination approved by the department, (c) has been certified by the department upon the recommendation of the board to use topical ocular pharmaceutical agents for therapeutic purposes, and (d) has been certified by the department upon the recommendation of the board to use topical ocular pharmaceutical agents for diagnostic purposes. The department may approve for certification pursuant to subdivision (2)(a) of this section a
therapeutic course or courses of instruction, from an institution accredited by a regional or professional accrediting organization which is recognized by the United States Department of Education, that have been completed after January 1, 1984. Such course or courses shall include, but not be limited to:

(i) Review of general pharmacology and therapeutics;
(ii) Review of ocular therapeutic pharmacology;
(iii) Diagnosis and treatment of diseases of the eye, ocular adnexa, and visual system;
(iv) Diagnosis of corneal disease and trauma including corneal foreign bodies;
(v) Diagnosis and treatment of anterior segment eye diseases;
(vi) Clinical procedures related to the diagnosis and treatment of the eye, ocular adnexa, and visual system;
(vii) Ocular manifestations of systemic disease;
(viii) Review of systemic disease syndromes;
(ix) Ocular therapy including management of acute systemic emergencies; and
(x) Consultation criteria in ocular disease and trauma.

(3)(a) An optometrist who is licensed and certified to use pharmaceutical agents for therapeutic purposes on July 15, 1998, who graduated from an accredited school of optometry prior to January 1, 1996, shall complete the educational requirements relative to the treatment of glaucoma, as determined by the board, prior to January 1, 2000, and shall complete such educational requirements prior to treating glaucoma. Failure to complete such education prior to January 1, 2000, shall result in the revocation of the licensee's certification to use pharmaceutical agents for therapeutic purposes.

(b) An optometrist who applies for licensure on or after July 15, 1998, who graduated from an accredited school of optometry prior to January 1, 1996, shall complete the educational requirements relative to the treatment of glaucoma, as determined by the board, prior to being issued a license to practice optometry.

(c) An optometrist who graduated from an accredited school of optometry after January 1, 1996, shall be deemed to have met the educational requirements for certification to use pharmaceutical agents for therapeutic purposes which includes the treatment and management of glaucoma.

71-1,135.03
Pharmacology course; glaucoma course; approval; requirements.

(1) No course or courses in pharmacology shall be approved by the department upon the recommendation of the Board of Optometry unless taught by an institution which is accredited by a regional or professional accrediting organization
which is recognized by the United States Department of Education and the transcript credit for the course or courses is certified to the board by the institution.

(2) No course of instruction in the treatment of glaucoma shall be approved by the department upon the recommendation of the board unless it is taught by an institution that is recognized by the United States Department of Education or its successor and the content for the course is certified to the board by the institution as being comparable in content to a course of instruction in the treatment of glaucoma required by other professional boards for licensees or registrants allowed to treat glaucoma in the scope of their professional practice.

Legislative findings and declarations.

The Legislature finds and declares:
(1) That the scope of teaching and practice of optometry has changed and that it is in the public interest that any person seeking initial licensure as an optometrist and having graduated from an accredited optometry school after August 25, 1989, in addition to any other requirements of the Uniform Licensing Law, demonstrate adequate knowledge and training in all areas of the practice of optometry as defined in section 71-1,133 and satisfactorily complete the educational requirements set forth in section 71-1,135.02; and
(2) That it is in the public interest that no optometrist licensed pursuant to the Uniform Licensing Law use pharmaceutical agents for diagnostic or therapeutic purposes unless he or she has taken the examination prescribed in section 71-1,135 after August 25, 1989, or unless he or she is certified pursuant to section 71-1,135.02.
71-1,135
Use of pharmaceutical agents by licensed optometrist; standard of care.

(1) A licensed optometrist who administers or prescribes pharmaceutical agents for examination or for treatment shall provide the same standard of care to patients as that provided by a physician licensed in this state to practice medicine and surgery utilizing the same pharmaceutical agents for examination or treatment.

(2) A licensed optometrist who administers or prescribes pharmaceutical agents for the treatment of glaucoma shall provide the same standard of care to patients as that provided by a physician licensed in this state to practice medicine and surgery utilizing the same pharmaceutical agents for the examination and treatment of glaucoma.

71-1,136
Optometry; approved schools; requirements.

No school of optometry shall be approved by the Department of Health and Human Services Regulation and Licensure as an accredited school unless the school is accredited by a regional or professional accrediting organization which is recognized by the United States Department of Education.

71-1,136.01
Optometry; continuing education requirements; exemptions; rules and regulations; proof.

(1) Each Nebraska-licensed optometrist in active practice within the State of Nebraska shall be required on or before August 1 of each even-numbered year to attend thirty-two hours biennially, of which sixteen hours shall be earned annually, of such approved scientific schools, clinics, forums, lectures, or optometric educational seminars, as may be announced and approved by the Board of Optometry, as a prerequisite for the licensee's next subsequent license renewal if at least sixteen hours of such educational program are conducted annually in the State of Nebraska and at least
thirty-two hours of such educational program are conducted biennially in the State of Nebraska.

(2) Each licensed optometrist in active practice within the State of Nebraska shall, on or before August 1 of each even-numbered year, certify on forms provided by the board that he or she has complied with sections 71-1133 to 71-1136 and this section during the preceding two-year period. Such board shall, on or before August 1 of each even-numbered year, report all licensees who have complied with the educational requirements to the department. Licensees who have not complied with such requirements shall not be issued a renewal license unless exempt or excused for good cause shown. The department, on the recommendation of the board, may waive continuing education requirements, in part or in total, for any two-year licensing period when a licensee submits documentation that circumstances beyond his or her control prevented completion of such requirements. Such circumstances shall include situations in which:

(a) The licensee holds a Nebraska license but is not practicing optometry in Nebraska;

(b) The licensee has served in the regular armed forces of the United States during part of the twenty-four months immediately preceding the license renewal date;

(c) The licensee has submitted proof that he or she was suffering from a serious or disabling illness or physical disability which prevented completion of the required number of continuing education hours during the twenty-four months immediately preceding any license renewal date; and

(d) The licensee was first licensed within the twenty-six months immediately preceding the renewal date provided in section 71-110.

(3) The department, with the consent of the board, may adopt and promulgate rules and regulations not inconsistent with this section pertaining to waiver of continuing education requirements.

(4) Each licensee shall provide a sworn affidavit listing continuing education activities in which he or she participated or attended, the amount of credit received for each activity, and the date, location, and name of the approved provider which sponsored the activity on a separate form or portion of the license renewal application as may be designed by the department. Each licensee shall be responsible for maintaining in his or her personal files such certificates or records of credit from continuing education activities received from approved providers.

(5) The board may biennially select, in a random manner, a sample of the license renewal applications for audit of continuing education credits. Each licensee selected for audit shall be required to produce documentation of his or her attendance at the continuing education seminars listed on his or her renewal application.
